**Glossary of terms**

Source: Land Transport Safety Authority

<b>Car</b>	A Vehicle designed primarily for the carrying of passengers.
<b>Commercial</b>	A Vehicle designed primarily for the carriage of goods such as: vans, utilities, trucks. This definition also includes Buses and Coaches in our Registration Statistics.
<b>Ex-overseas</b>	An ex-overseas is a vehicle which has been previously registered in another country before arrival in New Zealand.
<b>Gross Vehicle Weight</b>	Also known as Gross Vehicle Mass: denotes the Manufacturer's gross laden weight of a vehicle, in kilograms.
<b>Licensing</b>	The process of issuing a Licence to a vehicle to allow it to be used on the road. Vehicles are licensed after they are registered: the vehicle owner pays a licensing fee, and a licence label is attached to the vehicle.
<b>Miscellaneous</b>	A Miscellaneous Vehicle, in Registration Statistics, is one which, by its design, is not of a commonly defined vehicle type: e.g. Steam Engine, Crane, etc.
<b>New</b>	For the purpose of Registration Statistics, the definition of "New" also includes ex-overseas vehicles.
<b>Registration</b>	The process of adding a vehicle to the Motor Vehicle Register: a vehicle, whether new or used, must first be registered before it can be "licensed" to be used on the road. Registration has been traditionally confused with Licensing: registration is normally carried out only once in the lifetime of a vehicle, whereas licensing is renewed every 6 or 12 months.

**Notes**

1. The statistics in this book refer to vehicle registrations – not vehicle imports. Import statistics would generally differ from registration statistics because of the carry-over of stocks from one year to the next.
2. All the statistics in this book refer to calendar years.
